# COMMERCIAL INTELLIGENCE

SATURDAY EVENING, JUNE 18.

Consols in London yesterday were ¼ lower at 100⅛, French Rentes unchanged 119¼, Enfaced Rupee Paper ¼ higher in Fours at 85 and ¼ up in Fours-and-a-half at 91¼.

In General Produce, Coffee and Cocoanut Oil were unchanged. Linseed was unaltered. Rapeseed is firm with a general advance of 6d. Wheat is quieter. The London Skin Sales closed with an advance of 1d. per lb. in Sheep Skins. Of the 1,380,000 Skins offered 1,330,000 were sold.

Piece-goods in Manchester yesterday were quiet but steady at previous prices. The Liverpool Cotton Market yesterday closed dull, sales 8,000 bales, spot prices unchanged except for a decline of 1-16d. in Americans, which were also 1-32d. to 1-16d. lower to arrive. To-day's market is also reported dull, sales 6,000 bales, but no alteration in values. In New York yesterday ready Mid-Uplands were quoted unchanged at 11 1-16 cents, but September shipment had declined from 10·63 to 10·52 cents per lb., and to-day there is no movement recorded either in ready or futures.

We subjoin our usual weekly comparison of the position of the staple. The total visible supply has decreased by 120,000 bales, but it is still close upon 400,000 bales in excess of last year, by no means an insignificant item when we further take into account the enormous supply we have in prospect from the growing American Crop. The Liverpool stock keeps steadily up at about 900,000 bales, preventing spinners having any anxiety about ready supplies.

The American Crop figures to date are as follows :—

| | 1881. | 1880. | 1879. |
|---|---|---|---|
| Week's Receipts | 28,000 | 20,000 | 6,000 |
| " Exports to U. K. | 27,000 | 15,000 | 16,000 |
| " " to Continent | 12,000 | 18,000 | 200 |
| Total Receipts since 1st Sept... | 5,577,400 | 4,792,600 | 4,402,500 |
| " Exports to U. K. " .... | 2,549,600 | 2,351,000 | 1,971,700 |
| " " to Continent " .... | 1,666,700 | 1,238,900 | 1,374,600 |
| " Stock in the Ports..... | 493,000 | 328,000 | 213,000 |
| Saturday's Receipts..... | 3,000 | 3,600 | 900 |

The total visible supply of Cotton for all Europe on the 17th instant gives the following comparisons :—

| | 1881. | 1880. | 1879. |
|---|---|---|---|
| Total supply of all kinds .. | 2,580,000 | 2,197,270 | 1,639,470 |
| " " " Surats..... | 565,000 | 575,600 | 452,400 |
| For the U. K. only the figures are :— | | | |
| Stock in Liverpool ..... | 906,000 | 764,270 | 606,020 |
| " London ..... | 50,000 | 55,830 | 42,070 |
| American Afloat ..... | 130,000 | 201,000 | 94,000 |
| E. Indian " ..... | 102,000 | 154,000 | 183,000 |
| | 1,188,000 | 1,175,100 | 925,090 |
| Price of Mid-Uplands ..... | 6¼d. | 6 13-16d. | 6 15-16d. |
| " Fair Dholleras..... | 4¼d. | 4 15-16d. | 5¼d. |
| Difference.. | 2d. | 1¼d. | 1 7-16d. |

Exchange.—The rise have yesterday had evidently little effect on Bar Silver in London. Reuter only quoted 51d. yesterday, but private massages gave 51¼d., which is confirmed by Reuter to-day. The insignificance of the movement, however, had something of a disappointing character, and notwithstanding firm advices from Calcutta rates have given way 1-32d. all round to-day, closing quotations being :—

| | |
|---|---|
| Bank tills on demand ..... | rs. 7 19-32d. per rupee. |
| Do. telegraphic ..... | rs. 7 9-16d. " |
| Do. 3 months' sight | rs. 7 11-16d. " |
| Credits, 3 " " .. | rs. 7 13-16d. " |
| Documents, 3 " " .. | rs. 7 27-32d. " |
| Francs, 3 " " .. | 2·09½ " |

Government Paper.—Reuter's telegram from Simla to hand this morning intimates definitely that a new Loan for 3 crores of rupees will be issued this month at 4 per cent., but so far from having any advance effect on the market, the fact of the loan being only for the amount named and in Fours has restored a considerable amount of confidence. The speculators have again been freely at work, and rates have been advanced 5-16 per cent., making closing quotations Fours, Rs. 104 7-16 ; Fours-and-a-half, Rs. 111 11-16.

Shares are rather quieter. Bank of Bombays are ¼ per cent. lower at Rs. 770. Agras have receded to Rs. 130. Spinning and Weaving Mill Shares are firm, and in one or two instances a shade higher.

Cotton has been quiet in the extreme to-day, and sellers have been offering to accept a reduction of Re. 1 to Rs. 2 per candy, without, however, leading to any business of importance.

Linseed is very firm at Rs. 6-6 to Rs. 6-7 as also is Rapeseed at Rs. 6-1 to Rs. 6-2 for Guzerat.

Wheat continues in active request at Rs. 3¼ for Soft White.

Freights are steady but unchanged all round.

Piece-goods have not altered in any way, the ready market being still very flat.

Coals are quiet but steady.

# The Bombay Gazette

MONDAY, JUNE 20, 1881.

The approaching installation of the Gaekwar of Baroda—an event which, we are given to understand, will take place about the end of the year—will form another interesting chapter in Baroda affairs. Since the last Maharaja was deposed in January 1875, the State has practically been under the rule of the present Prime Minister or Dewan, Raja Sir T. Madava Rao, K.C.S.I., one of the most eminent native politicians that the English rule in India has produced. Though he has been, during his administration for the last six years, aided by the advice of the Resident, Mr. Melvill, and though in carrying out the routine duties of the State he has been assisted by a number of native gentlemen, it must not be forgotten that Sir Madava Rao has been "the man of light and leading," whose opinions have determined the policy that has been in force during the inter-regnum, and it is therefore to Sir Madava Rao that we must look for an account of what has been done.

The condition of Baroda when the new regime began was certainly a most chaotic one. Nothing seemed to be in a flourishing condition except corruption ; public business had been utterly neglected for many years ; a profligate and prodigal diversion of public resources had been made in favour of the ex-Maharaja's dependents ; the old department of Public Works was irretrievably bad, and its accounts were in a state of confusion which, we are told, was not altogether accidental ; for the sake of a paltry revenue various bad monopolies (such as one on the sale of sugarcane in the city of Baroda) existed ; taxation was uncertain and vexatious ; the several sources of revenue were farmed out to those who possessed few scruples and made enormous gains ; the public servants in general were venal and selfish. In fine, in drawing the picture of Baroda as it was, the Dewan himself feels his own power of language feeble, and so uses the words of Edmund Burke in telling us that the Baroda Exchequer was one "wherein extortion was the assessor, fraud the cashier, confusion the accountant, concealment the reporter, and oblivion the remembrancer."

Such being the naked truth about Baroda as it was then, we may well enquire when the State is on the point of being handed back to the Gaekwars, what the condition of Baroda is now, and look to Sir Madava Rao for an account of his stewardship during the last six years. The answer to such an enquiry would, however, go beyond the limits of a newspaper article, and we would therefore refer those who wish for full information to the various Administration Reports that have been forwarded from Baroda to the Government of India and printed at the Foreign Department Press. We can recommend these interesting and well-written reports to those who care to read about the progress of a State which has been solely ruled by native civilians, we cannot afford space to fully upon all the changes of the past six years, still there are a few points to which we might, not unadvantageously, call attention. Judging from what we see in the Reports, it would appear that one of the main points of the policy of the present Baroda Government has been to provide a school, a dispensary, and a jail for each large town. The desire has evidently existed, and has been in a large measure met, to educate the minds of the young, to provide for the wants of the sick, and to restrain the superabundant energies of the riotous and the troublesome. As regards education, we notice that there are about 110

(FROM OUR OWN CORRESPONDENT.)

## THE JAMNAGAR POSTAL FRAUD.

RAJKOTE, JUNE 18.

In concluding an elaborate address, which lasted the whole of yesterday, Mr. Tyabjee, the counsel for the Maharaja, intimated that the question of the Court's jurisdiction to try his client, which he was not allowed to argue, had been sent up to Government, and if Government had not already communicated to the authorities their decision on the question, they would do so very soon. It is said that a petition has been presented to the Bombay Government on behalf of the Maharaja, protesting against the assumption of jurisdiction by the Court to try him, and that on that petition Government have already telegraphed a stay of sentence against the Maharaja until further orders, and that he will be released on bail till then. The case will be concluded to-day.

Judgment was postponed to the 28th instant under instructions from Government. The case will have to be submitted to Government before judgment is pronounced.

## RAIN AT BROACH.

BROACH, JUNE 19.

Rain fell, sixty-seven cents on the 14th instant and ninety-six cents on the 19th. The weather is still cloudy.

THE Government of India have decided with the assent of Her Majesty's Government that His Highness the Gaekwar shall assume the administration of the Baroda State at the end of the present year, when His Highness will have attained the age of nearly 19 years.

A NATIVE Bombay newspaper lately suggested that it would be a great convenience to the public if money order forms were issued in the vernacular. With reference to this it is observed that such forms have been introduced into Bengal and are much used there, and it is intended shortly to introduce them into the Bombay Circle.

THERE was a great overflow of the Tapti at Surat on the 12th instant. The dead bodies of animals as well as a large quantity of building materials were seen in the flood. There has been scarcely any rainfall at Surat, and it is conjectured that the flood was the result of a large downpour somewhere about Khandeish.

COLONEL TANNER, who replaced Major Biddulph as Political Officer at Gilgit, has been ordered to come down to India in the course of the summer. The Agency will not remain at Gilgit during the coming winter, so that it is necessary that Colonel Tanner should leave while the season is fine and the roads easily traversable. Colonel Tanner was, according to the latest report, in ill-health.

LIEUT.-COLONEL RIDGEWAY, now on leave, who is Assistant Secretary in the Indian Foreign Department, will, it is said, be appointed to the post of Junior Under-Secretary, just revived. The appointment was necessary owing to the great increase of work in the office during the last few years. An attaché is to be abolished to make up for a portion of the extra expense.

MR. J. W. H. HUGHES, of the Geological Survey, has been rather badly mauled in an encounter with a bear near Rewah.

IT is reported that the Government of India has refused to sanction temporary substantive promotions in the North-West Provinces, *vice* Mr. Plowden, confirmed as Census Commissioner, on the ground that his duties as such will be of brief duration.

CHOLERA still prevails at Surat, and has spread to the villages round about. A correspondent of the *Bombay Samachar* states that a strong force of physicians has been added to the existing medical strength in the localities. Surgeon M. B. Cola has, it is said, sent in a report tracing the cause of the malady to the dunghills and filth accumulations which have been forming for years past.

A WRITER in the *Indian Spectator* asks the Government to allow Parsees to become volunteers. "The Parsees have," he says, no 'Maharajas' or 'Nabobs' whom they might be tempted to enthrone Emperor of Delhi. They are loyal to the back-bone. In fact, to name Parsees is to describe loyalty itself. They have no one but the British to look to. If the latter leave India to-day, the Parsees will follow them to-morrow. In race, religion, feelings, and habits they are quite different from the other nations of India. Besides, they are a mere handful of men, and therefore there is the greater reason why they should be protected by being trained to the use of arms, as in times of disturbances, Government may not afford to protect them where everybody is left to shift for himself."

THE Government of Bengal has published a letter from Dr. King on the subject of the sales of Cinchona bark by the Governments of Madras and Bengal in the Home market. The purport of this communication, which has no doubt been prompted by the late agitation on the subject in London, is to show that the extent to which the Madras Government bark came into competition with private grown Indian bark last year, was only 6·6 per cent., while Madras and Sikkim bark together formed only 1·82 per cent. of the total importations into England, and the Sikkim bark consisted entirely of a variety, the yellow, which is not grown on any private plantation in India.

IT is said that the Geological Survey Department propose to carry out operations on the Punjab frontier during the coming field season, provided there be no political objections to their plans, of which the following is a brief outline. It is intended to take up the work from the point to which it was carried in Sind, four years ago, by Mr. Blanford, and carry it into connection with Mr. Wynne's work in the Punjab. This will involve an exploration of the hills on and beyond the border in the Dera Gazi Khan, Dera Ismail Khan, Bannu, and perhaps Kohat Districts, while it is further proposed to extend operations into Hazara, along the eastern side of the Kaghan Valley. Mr. Blandford will probably commence work about Sibi some time in November, carrying on his explorations along the skirts of the Murri Hills to Bannu.

AN important change is, says a contemporary about to be made in the cantonment hospital system as applied to British troops. Hitherto each arm of the service has had its separate hospital establishment; and in large cantonments the expense of maintaining three or four staffs has been exceedingly heavy. Now central station hospitals are to be created, wherever this is possible, without the necessity of erecting new buildings. In future British soldiers when sick will be removed, not to the regimental hospital, but to that which will do duty for the whole station. The number of apothecaries will be greatly reduced, the surgical appliances, instruments, drugs, &c., will be returned into the regimental hospitals are closed, and probably fewer surgeons will be required. The saving expected to be carried out by these means will be considerable; but we do not understand what arrangements have been made to meet the demands of regiments when ordered on service.

ON the evening of the 9th instant, General Sir D. Stewart, Colonel McLeod Innes, Captain Bell, Major Hewett, Captain Cole, Captain Collen, Captain Poignand, Lieutenant Michell, Captain Kennell, Major Hallowes, Colonel Combe, &c., &c., met in the rooms of the United Service Institute at Simla, for the purpose of making arrangements for the playing of the war game—"Kriegspiel." The following members, Colonel McLeod Innes, Captain Bell, Colonel Combe, Captain Collen, and Major Hallowes, were nominated to form a committee to draw up a scheme for the conduct of the first contests to take place at the rooms of the institute on the 25th current.

THE *Pioneer* says that its recent article upon the probable transfer of the Punjab Frontier Force to the Commander-in-Chief has met with much approval among officers on the Frontier." We are assured that such a transfer would be hailed with satisfaction, *provided* the troops composing the Punjab Frontier Force are allowed to take their tour of service in stations which are now under the Commander-in-Chief. At present the Force has to garrison the following places on the Border:—Abbottabad (head-quarters), Kohat, Bannu, Dera Ismail Khan (Tank border), Dera Ghazi Khan, Rajanpur, Murdan. The last named place belongs exclusively to the Corps of Guides. With the exception of Abbottabad, none of these stations can be called "desirable." The expense of living in them, miles away from the railway, is 20 per cent. higher than in ordinary cantonments; the cost of travelling in reaching and leaving them is very great; and yet the pay is exactly the same (the Guides excepted) as in native regiments under the direct orders of the Commander-in-Chief."

THE Assam Coolie Emigration Bill, now in the hands of the Government of India, has, says the *Englishman*, only progressed so far that directions have been given to the Legislative Department to prepare a draft embodying the views of Government. We have reason to believe that no very material alterations are proposed in the existing law, though such changes as are contemplated will be in the direction of concession to the planting interest. Looking at the urgency of the questions at issue and the magnitude of the interests involved, the delay that has taken place is not very creditable to the Government of India, while, if the above is an accurate description of the scope of the coming Bill, the result will be a serious disappointment to all concerned in the tea industry.

THE *Pioneer's* London Correspondent, writing on May 27th, said:—"The friends of Captain Butler are still moving in his behalf. A deputation, headed by Mr. Labouchere, M.P., waited on Lord Hartington yesterday to urge him to reconsider his decision in the matter. I do not know the result of the deputation, but from the feeling of the India Office I should think a reversal of the previous decision very unlikely."

ADMIRAL TING, of the Chinese Navy, and suite have been inspecting the Naval establishments of Portsmouth. The Admiral was taken on board the Excellent, where he witnessed an electric broadside, and he also visited the Vernon torpedo school. Admiral Ting having expressed a wish to visit the Britannia and Devonport Yard, the necessary permission has been given by the Admiralty.

THE China papers mention that Commodore Schufeldt is appointed Naval attaché to the United States mission at Pekin, but the *New York Herald* and other American papers state that his real appointment is to be that of Admiral-in-Chief of the Chinese Navy. The *Herald* further adds "the appointment of Commodore Schufeldt has a peculiar significance, and is 'an affair of State' designed to break up England's supremacy in China, and of the distrust which the Chinese would feel of the loyalty of officers of other nations than the United States in the event of hostilities with their countries."

ACCORDING to a telegram received from St. Vincent there were two explosions on board the Doterel—the first supposed to have been caused by the bursting of a boiler used for condensing and the second in the fore magazine. The Doterel sank in eight fathoms, going down head first in three minutes. The survivors saved their lives by jumping overboard after the first explosion, being then picked up by boats from some sailing schooners and the yacht of the Bishop of the Falkland Islands. Commander Evans, remarks the *Army and Navy Magazine*, also saved his life by his extreme agility, for he did not wait to make inquiries as to the cause of the first explosion, but "sprang through a port," and was taken out of the water much lacerated by broken glass and wreckage, by which it would appear that he went through sash and all. The statement that nothing was to be seen of the ship but a "few boards," gives an idea of the terrible force of the second explosion.

MR. FLEUSS has been giving at Portsmouth some practical illustrations of the merits of his new diving dress and of his aparatus for enabling persons to live and work in noxious gases. A diving dress and helmet are only used by Mr. Fleuss for the sake of warmth and personal comfort when below the water, neither being in any way necessary to enable him to breathe. He carries below with him a supply of concentrated oxygen, contained in a small reservoir or tank, which he slings over his shoulder like a knapsack. At every respiration he draws from his stock, and the exhausted gas, after being strained through a sponge saturated with caustic soda, returns to replenish the tank, the impure ingredients alone being permitted to escape. In this way the diver can remain under water for three or four hours. Mr. Fleuss, it is understood, is projecting a submarine vessel, propelled by compressed air, after the manner of the Whitehead torpedo, and provided with artificial or manufactured air for the use of the crew. Against such a weapon as Mr. Fleuss contemplates neither ram, gun, nor armour would afford the slightest protection.

FRENCH trade (observes *Public Opinion*) is not in so satisfactory a state as it was this time last year. The imports for the first four months of this year exhibit a decrease of about twenty-five millions of francs, as compared with the same period in 1880, and the decrease in the exports amounts to fifty-two millions of francs. The French press is to a certain extent right in attributing this unpleasant condition of things to the provisional state of France's commercial relations; but that is only an outward symptom. The real causes lie deeper and might, perhaps, be found if men would seek for the reason why France's commercial relations are in a provisional state. The present indirect rules of finance, and the possibly unessential aspirant to more direct personal rule, has evidently no desire to promote cordial relations with England, or perhaps with any Power for the present, as the recent acts of the nominal Government of France conclusively prove. But he has not had so good an opportunity with regard to other Powers of showing this, as the approaching lapse of the commercial treaty has given him with regard to England. It should not be lost upon Englishmen that one who may be presumed to know well the temper and feeling of his countrymen should find it suit his purpose, or should even think it suits his purpose, whilst deliberately, and to a certain degree ostentatiously, showing his disregard for the opinion of Europe, to show still more deliberately and ostentatiously his disregard for the opinion of England, or for the renewal of the relations which commercially have been of so much value to both countries. The following, from an influential Paris paper, may to some extent explain his feeling towards us: "In their own interest the English would do well to reflect that, if Germany and France were ever to forget their rivalry and defeats in 1866 and 1870, and agree cordially to unite, there would be room for no other Powers in Europe."

## REWARDS FOR GALLANTRY.

A NOTICE appears in General Orders to the effect that Her Majesty the Queen has been pleased to approve, on the recommendation of His Royal Highness the Field Marshal Commanding-in-Chief, of the grant of silver medals for "distinguished conduct in the field," without annuity or gratuity, to the following non-commissioned officers and men:—

Trumpeter J. J. McGlynn, Royal Artillery,
Lance Corporal S. Pitchford, 2-7th Foot,
Private G. Harbart, 2-7th Foot,
Private E. Hallett, 2-7th Foot,
Private R. Henry, 2-7th Foot,

for their gallant conduct on the occasion of the sortie from Kandahar on the 16th August, 1880.

Her Majesty has also approved of the grant of similar medals, without annuity or gratuity, to

| | |
|---|---|
| Sergt. Major W. Paton, | Actg. Bombr. W. Payne, |
| Qr. Mr. Sergt. J. Munroe, | Trumpeter H. J. Jones, |
| Sergt. T. Burridge, | Gunner T. Tighe, |
| Corporal F. Thorogood, | Driver J. Bishop, |

all of the Royal Horse Artillery, for conspicuously gallant conduct during the action at Maiwand and subsequent retreat to Kandahar on the 27th and 28th July 1880; and to Corporal T. Gordon, 72nd Highlanders, in recognition of his gallant conduct at the battle of Kandahar.

Color Sergeants G. Jacobs and R. R. Lander, 72nd Highlanders, have also been granted a bar for attachment to the distinguished conduct medals already conferred on them, in recognition of the further gallant conduct displayed by them at the battle of Kandahar.

## THE ITALIAN STATION AT ASSAB BAY.

THE following note respecting the settlement of an Italian station at Assab Bay has been prepared with reference to the Reuter's telegram announcing the massacre of an Italian exploring party in that neighbourhood. Assab Bay is situated on the African Coast of the Red Sea, about 5° miles from Perim. Its greatest length is 14 miles and greatest breadth 6 miles. The land round about is said to be swampy, barren, and destitute of vegetation. There are several islands in the Bay, and it is reported that there is safe anchorage for the largest vessels within these islands. In 1870 the Italian Rubattino Company purchased some land on the shore of the Bay from the local chiefs, and used it as a coaling station for their steamers, both those on the line to India and those engaged in a coasting trade in the Red Sea. In January, 1880, the station was extended by the purchase from the Sultan of Roheita of a bout a square mile of land on the mainland, and of the principal islands in the Bay. The purchase was made by the Rubattino Company for commercial purposes; but the presence in the Bay of two Italian men-of-war led to some apprehensions as to the intentions of the Italian Government. It was, however, subsequently ascertained that no territory was to be taken over in the name of the Italian Government, and that no political sense was to be attached to the attendance of the Italian ships in the Bay, their duty being limited to the protection of the Rubattino establishment. The Italian Government at the same time gave an assurance that no arsenal, fortification, or other military work would be erected; and stated that the purchase effected by Messrs. Rubattino was purely a mercantile transaction, with which the Italian Government had nothing to do. In April 1880 it was ascertained that the Rubattino Company had purchased lands extending 5 miles inland; and subsequently the station has been considerably improved and extended. Houses have been built and the old pier enlarged, though it would appear that there are no residents except the Rubattino Company's Agent, and the officers and men of the Italian cruisers. It has lately been reported in the newspapers that the Italian Government have sent a Royal Italian Commissioner to take possession of the settlement at Assab Bay. This statement is not correct. The territory of which the Rubattino Company is in possession is part of the dominion of the Khedive of Egypt, who has lately appointed a Governor of the Red Sea coast, with jurisdiction extending as far as Ras Hafoun, and H. M.'s Government have been assured by the Italian Ministers that the Commissioner did not take possession of the settlement in the name of his Government; on the contrary, he refused to do so, and his sole duty is to maintain order among those who have established themselves at Assab Bay. The party of Italians who are reported by Reuter to have been massacred were probably an exploring party which, it is understood, intended to start for the interior of Abyssinia.

GOD SAVE THE QUEEN.

PRINCE'S DOCK.—The s.s. Kathleen and Rydal Hall entered, and the ship Dewa Gungadhur, s. s. Calipso, and Wistow Hall left, the dock on Saturday.

A DESERTER.—Private Panther, of H. M.'s 4th Regiment, stationed at Colaba, is reported to have deserted from that regiment on Friday morning last. He is said to have taken the whole of his kit of clothes with him. A search is being made for him by the police.

ASSAULT.—Mahadao Luximon was on Saturday convicted by Mr. Dosabhoy Framjee of committing an assault upon the person of Parwatee, a woman, on the evening previous at Khetwady. He was fined Rs. 20, or in default to suffer fourteen days' rigorous imprisonment.

ACCIDENT.—Jannoo Sumboo, a labourer employed yesterday morning at work on the roof of the Ice Factory at Moody Bay, accidentally slipped and fell into the street below, sustaining a fracture of the base of skull. He was conveyed to the G. T. Hospital, where he lies in a precarious state.

CRUELTY TO ANIMALS.—The following is a summary of cases prosecuted by the agents of the S. P. C. A. during the week ending the 18th instant:—Horses, 1 sore chest; bullocks, 18 lame, 27 sore necks, 1 emaciated, and 9 overloaded; total number of cases 58; amount of fines Rs. 115.

A DISHONEST SERVANT.—Tae a domestic servant in the empioy of Jan Mahomed Asha, was on Saturday last convicted by Mr. Dosabhoy Framjee of stealing a gold earring, valued at Rs. 18, the property of her master. She was sentenced to six weeks' rigorous imprisonment.

CARRYING EXCESS PASSENGERS.—Narayen Hurry, tindal of a native craft, was on Saturday last convicted by Mr. W. Webb of carrying a greater number of passengers than his boat is licensed to carry. Being an old offender he was fined Rs. 30, or in default to undergo six weeks' rigorous imprisonment.

NAGPUR.—"Veritas," writing from Nagpur, complains of the very small benefit the inhabitants of the Central Provinces derive from the sumptuary allowance made to the Chief Commissioner, and considers that, with a special allowance of Rs. 6,000 a year for the purpose, that dignitary might "entertain" more than he does.

CARRIAGE ACCIDENT.—Ooma Rama, a Hindoo ayah, aged 50 years, while going along the Cheera Bazaar Road last evening at about 7 o'clock, was knocked down and run over by a mail phaeton, sustaining a fracture of the spine and serious injuries to her back. She was conveyed to the G. T. Hospital, where she lies in a precarious state.

LOSS OF A WATCH AND CHAIN.—Lieutenant Pickwood, of the Royal Artillery, stationed at Kirkee, at present staying at Colaba, reported to the police that on Friday night last, on his way from the Royal Artillery Mess at Colaba and Captain Knox's bungalow he dropped his gold watch and a gold Albert chain attached. A search was instituted, but no trace of the missing property has been found as yet.

THEFT AT GUNNESHWADY.—Sooba Luximon, residing at Gunneshwady, reported to the police on Saturday last of the theft of two gold ornaments, valued at Rs. 400, and Rs. 16-9-2 in cash from his premises on the night of the 17th instant. Upon enquiries being made by the police two persons, named Rajah Luximon and Rajeswar Juggernath, were arrested on suspicion, and the box which contained the ornaments and the cash was recovered, but the stolen ornaments have not yet been found.

FATAL ACCIDENT.—A Coroner's inquest was held on Saturday last at Jail Road, on view of the body of Dada Bapoo, aged about thirty-five years, a labourer, who on the evening previous, while at the Steam Flour Mill belonging to Rahimtoola Virjeebhoy, situated on the Jail Road, accidentally fell into the pit of the fly-wheel and was injured in such a manner that he died immediately after the occurrence. A verdict of accidental death was returned.

DEATH OF MR. S. J. BHOWNUGRIA.—The death is announced of Jamasjee Bhownugria, who died on Thursday evening, at his residence in Girgaum. He was only 44 years at the time of his death. He was employed in the Customs Department as an Assistant Collector. He belonged to a respectable family in Surat. The funeral and the third day's obsequies were attended by a large number of friends and acquaintances. He leaves behind five sons and five daughters, all utterly unprovided for.

CRIMINAL BREACH OF TRUST.—Two noted characters, named Framjee Hormusjee and Suleiman Cummissa, were on Saturday last convicted by Mr. W. Webb, prisoner No. 1 of criminal breach of trust in respect of three cotton quilts, valued at Rs. 7-14, the property of Virjee Dama, and prisoner No. 2 of aiding and abetting the commission of the said offence and assisting in the disposal of the said property. Prisoner No. 1 was sentenced to three months' rigorous imprisonment and prisoner No. 2 to four months' similar imprisonment.

HOUSE-BREAKING AND THEFT.—Merwanjee Shapoorjee, residing in Gilder Street, reported to the police on Friday last that the lock on the street door of his house was opened by means of a false key, his room entered, and a box containing wearing apparel broken open and clothes to the value of Rs. 67 stolen therefrom.—Narayen Gopal, residing on the Mount Road, Mazagon, also reported on the same day that while he was away at his work the lock on the street door of his house was broken, the house entered, and a box with Rs. 40 in cash and wearing apparel were stolen.

THE CALCUTTA PREACHING CASE.—Whatever result the case against the missionaries at Calcutta may lead to, the *Bombay Samachar* is positive that it would end a race grievance. An impression in certain parts of India is not entirely absent that Government officers have hitherto used their authority to favour Christian preaching. The decision of the case now pending at the Calcutta Police Court will, however, secure the rights of preachers of all denominations, which the *Samachar* regards as a consequential circumstance of much religious and even political import.

ATTEMPT TO COMMIT SUICIDE AT POONA.—At about 8-30 on Friday morning, Private G. Best, D Company, 1st Battn. Rifle Brigade (who had been reported absent from the Commanding Officer's parade at 6 a.m.), repaired to his bungalow and loaded his rifle, affixed a piece of sling to the trigger, lay upon his back, and fired with his foot. But luckily for him the muzzle moved slightly to the right, and the bullet passed to the right of his head, slightly singeing the cheek and passing through the wall of the bungalow. Private Best is in close confinement, pending medical examination; he is an old soldier and bears an excellent character.—*Deccan Herald.*

FIRE IN THE FORT.—A fire broke out on Saturday evening at about a quarter-past eight o'clock in a room on the third floor of a house situated in Oswagan Mansion, occupied by Mr. Framjee Merwanjee and family. Smoke was observed issuing from the room by the neighbours, who at once forced the door open, when it was discovered that two large wooden boxes containing clothes were burning and that the premises were on fire in other parts of the house. An alarm was raised, and the neighbours bringing water the fire was held in check until the arrival of the Fort fire engine, when a hose was taken into the room and worked for an hour. The fire was extinguished a short time afterwards. It appears that Byramjee Merwanjee and his family went out at 7 p.m., closing the doors and leaving a lighted kerosine lamp hanging in the room, just above a box on which there was lying some loose clothing. It is supposed that the lamp exploded and thus caused the fire. The damages are estimated at Rs. 700, including three currency notes for Rs. 100 each, which were kept in one of the boxes.

POLO AT KURRACHEE.—We are glad to be able to record the performance of the Kurrachee Polo Club. On Thursday afternoon an interesting match was played on the station polo ground behind the barracks between the 98th Regiment and the Station. Very shortly after play was begun, Mr. Warburton scored the first goal for his side, Captain Johnson soon adding another after a fine run down the ground. It now looked any odds on the Station team, but on resuming play after the first interval, the 98th team showed wonderful improvement; playing very well together and backing each other up, they kept the ball down at the Station end, Captain Allen scoring a goal for his side. The play was very even until just before time was called, Mr. Trevelyan, by a very fine bit of forward play, added another goal to the 98th score, making the match a draw. Although, perhaps, individually the Station team was the stronger, the 98th played better together than their opponents. The forward play of Mr. Trevelyan and Mr. Warburton for their respective sides was particularly good. The teams were as follows:—

| 98TH. | THE STATION. |
|---|---|
| Captain Allen, (Capt.) | F. C. Constable, Esq. (Capt.) |
| A. W. Prior, Esq. | C. Warburton, Esq. |
| W. F. Trevelyan, Esq. | C. E. Reynolds, Esq. |
| K. B. Mackenzie, Esq. | Captain Johnson. |

Polo has taken a new lease of life in Kurrachee, and now that the residents have come in from the districts, we hope to see many new players.—*Civil and Military Gazette (Sind issue).*

FORGERY.—The case in which James Grant Hobday stands charged with this offence, was resumed before Colonel Weldon, at the Egmore Police Court, on Wednesday. Mr. Charles Hiscox, residing in Anderson Street, Black Town, deposed to a letter produced in Court, having been written by him. This letter was dated the 3rd instant, and signed Rozario. The accused, according to the evidence of this witness, went to the house of the latter on the 10th instant, and asked him to copy out a letter for him, which he took away with him. He told Hiscox's mother that he wanted her son to stand witness in Court, to state that he (accused) was not at home on Thursday, the 2nd instant. Mr. W. R. Shaw, Cabinet-maker, on the Mount Road, deposed to the prisoner having come to his shop on the 17th instant, and taken some furniture on hire, which was subsequently returned. After the examination of Serjeant Fitzgerald, who arrested the accused at Chintadrepettah on the evening of the 9th instant, the case, on the application of Mr. James Carr, who appeared for Hobday, was adjourned, the prisoner being released on bail, himself in Rs. 1,000, and in two sureties of Rs. 500 each.

## N.-W. PROVINCES, PUNJAB, AND OUDH.

THE MONSOON.—We understand from Kasauli that the weather there has been the reverse of genial the last few days. Thunderstorms and heavy showers preceded a perfect deluge, which lasted for many hours on Saturday. The rains appear to have fairly set in along the Simla range. From Umballa we hear there has likewise been rain, and inhabitants are enjoying comparative coolness after the excessive heat of last week.—*Civil and Military Gazette.*

MAHOMEDAN SYMPATHY WITH HYAT KHAN.—A meeting of Maulvis was held in the Chiniawala Mosque on Friday last for the purpose of electing members for the mixed committee proposed to be appointed to collect such works as are calculated to set Hindus and Mahomedans against each other. Twenty-four Maulvis were elected for the Mahomedans. Afterwards the meeting elected 24 members for the speedy and honorable acquittal of Sirdar Mahomed Hyat Khan.—*Civil and Military Gazette.*

HIGH-HANDEDNESS.—The Lahore paper mentions the following instance of "the bigotry which characterises every action of the Hindu officials of Cashmere. A few days since the Lahore agent of the Maharajah, Lala Mahtab Rai, issued notices to Mahomedan shopkeepers in Lunda Bazaar to vacate the shops occupied by them, in order that they may be let to Hindu shopkeepers. One of these shopkeepers, who was told to vacate without loss of time, refused, to comply with the request at once. As is the custom with Cashmere officials, the servants of Mahtab Rai began to abuse him, and to effect by force what they could not get him to do by fair means. The shopkeeper in question has instituted a suit against the agent for this high-handed proceedings."

CHOLERA.—It is highly creditable to Colonel C. Beadon, Deputy Commissioner of Lahore, that he is doing as much as can be done to check the prevalence of malarious diseases in the city. He has issued a circular calling upon the Honorary Magistrates of Lahore to inspect the inner parts of people's houses in the city, for purposes of cleanliness; and has forwarded to each of them a bottle of Dr. Collis Browne's Chlorodyne at the expense of the Municipality, with orders to supply the medicine to any patients in their respective sections, who may be suffering from cholera. It seems to be worthy of mention that Murphy's "specific" for cholera has been tested by some of the local native medical practitioners, and has succeeded in effecting a perfect cure in some of the most hopeless cases. Nawab Abdul Majid, an Honorary Magistrate, has used this patent medicine this season in a few cases, and he says that the medicine has not failed in a single case. Could not the superior medical authorities make a test of the same?—*Civil and Military Gazette.*

POLICE OPPRESSION.—The following cases of police oppression are, we fear, but instances of a common practice which prevails among a body of men who should be everything that is honest, upright, and impartial. There is only too much cause for belief that not only do the native members of the force receive bribes upon every possible occasion, but also that they, in numbers of instances, trump up cases, for various reasons, against innocent persons. The police are, we know, recruited from the scum of the population, and their conduct is not to be wondered at. What is wanted is a higher rate of of pay which would induce a better class of men to join the force, and would give the European officers, who are a zealous, hard-working, and not over-paid body of gentlemen, a chance of performing the important work that falls to their share as it ought to be done.

A HORRIBLE case of police oppression is reported to have been committed at Dharmkot, in Tahsil Ferozepore. Nihal Chand, an inspector of police, having been bribed by the enemies of the Lambardar of that place, caused his (the Lambardar's) son to be arrested on a false charge of theft, and subjected him to such tortures that he succeeded in extorting a confession from him. He then went to his house, but failing to find any trace of the stolen property, beat the poor man so severely that he died in a short time. The inspector's conduct towards the wife of the deceased and her unmarried sister is reported to have been of the grossest description. He subsequently caused the deceased to be thrown into a well, and gave out that he had committed suicide out of shame. This police officer was prosecuted by the relatives of the deceased, and sentenced to three years' rigorous imprisonment.

A FEW days ago a robbery was committed in a village near the Lahore railway station. Dadu Khan, a sergeant of the Railway Police, who was sent to inquire into the case, asked and received Rs. 25 as a bribe. Having, however, failed to recover the stolen property, he was sued for Rs. 25 by the man from whom he had extorted the amount. On being asked, he stated that he had only received Rs. 5, which he said he had given to a European Deputy Inspector. Both were tried; Dadu Khan was sentenced to one year's rigorous imprisonment, and the Deputy Inspector was acquitted.—*Civil and Military Gazette.*

## TARIFF ON INLAND TELEGRAPHIC MESSAGES,

Nos. 103-90 T., Government of India, Public Works Department, Civil Works, Telegraph, Simla, May 31, 1881.

Read the following :—

Resolution by the Government of India Nos. 373-81 T., dated 5th October 1880.

Letter from the Bengal Chamber of Commerce, dated 15th November 1880.

Letter from the Madras Chamber of Commerce, dated 29th November 1880.

Letter from the Bombay Chamber of Commerce, dated 15th December 1880.

Letter from the Government of Bombay, No. 20 T.—1460, dated 21st December 1880.

OBSERVATIONS.—In the Resolution of 5th October, 1880, now read, the Government of India reviewed the suggestions which had been put forward by the Government of Bombay and the Chambers of Commerce of Bengal and Bombay for the modification of the inland telegraph tariff. In this review it was shown that, in comparison with the rates in force in other countries, the Indian inland tariff was moderate, and that the expectation that a reduction in the tariff would necessarily be followed by an expansion of business and an increase of revenue did not seem to be justified by past experience.

It was remarked that the Government of India was not prepared to adopt any revision of the tariff, the effect of which would be to burden the general revenues, in order that the senders of telegrams might be enabled to transmit them at a lower rate than the cost price; and that in any future modification of the tariff the object of rendering the telegraph service self-supporting must be steadily kept in view. But at the same time His Excellency the Governor-General in Council in publishing the Resolution invited further enquiry into the facts on which the conclusions were based, and expressed willingness to forward any scheme for developing and facilitating communication by telegraph, so far as it could confidently be adopted without risk to the interests of the tax-paying community.

2. The letters now read from the Government of Bombay and the Chambers of Commerce of Bengal, Bombay, and Madras on this subject show that, while the necessity of rendering the telegraph service self-supporting is freely recognised, there is still a widespread conviction that this end would not be endangered, but rather furthered by a revision of the tariff.

3. In support of these views, the growth of business of the telegraph administration of the Australian colonies is again brought forward and quoted as an instance of what can be achieved under a liberal system of management. The figures adduced have been carefully scrutinised by the Government of India; and although it appears that the Australian business has gained about 50 per cent. *relatively* on the Indian business, the *actual* increase of business during the last ten years has been two-and-a-half times as great in India as in Australia. In India the gross revenue from private traffic has increased from 13 lakhs of Rupees in 1872-73 to upwards of 25 lakhs in 1879-80, and the increase in revenue from private messages alone has been more than double the increase of revenue from all sources in Australia. It would appear from these figures that the rates in force in India have not so far had any markedly injurious effect on the expansion of traffic.

4. But taking into consideration this rapid development with the present tariff and the fact that during the past year the revenue from private messages alone (excluding the "State" and "free" messages) has only fallen short of the working expenses of the Department by Rs. 5,128, it appears to his Excellency the Governor-General in Council that there is no further financial necessity for withholding altogether the concessions sought for, and the time has now come when more liberal terms and greater facilities for using the telegraph, which are so earnestly contended for, may safely be offered to the public.

5. The directions in which change is most desired appear to be—

I.—The introduction of a word rate for all words in excess of the established minimum unit.

II.—The re-introduction of a sliding scale of charges in proportion to distance, and the establishment of cheap local telegraph services.

III.—The partial amalgamation of the telegraph with the postal services so as to secure economy of working.

IV.—The encouragement of telephone enterprise as an adjunct to the telegraph service.

6. With regard to the first point, His Excellency the Governor-General in Council is pleased to decide that from the 1st July next the charge for each word beyond the established minimum unit of one rupee for six words shall be two annas per word.

With regard to the second point, His Excellency the Governor-General in Council has already authorised the establishment of town telegraph services at a reduced rate, wherever there may be demand, the details of which will shortly be published in *the Gazette of India*. Further than this His Excellency is not at present inclined to go in this direction. The introduction of a differential tariff into the general telegraph system appears to be too retrograde a step to be seriously entertained.

The third point is one of great importance. The only feature in which the Indian telegraph system at present compares unfavourably with the Australian system is in the number of telegraph offices, and one of the reasons of the advantages enjoyed in Australia in this respect is probably to be found in the union of the Postal with the Telegraph Department. If the use of the telegraph is to be largely extended, it can only be so by a very great increase in the number of offices, and by spreading these offices widely over the country; and if the cost of the convenience is to be kept within the means of the classes for whom it is intended, the cost of the offices must be reduced to the lowest limit compatible with efficiency. In many remote places there will never be work enough to pay for a special signaller; hence the extension of the telegraph to such places must be contingent on other remunerative work being available for the agency employed. The possibility of introducing a change in this direction will receive careful consideration, but the present time is inopportune, owing to the recent large expansion of business in the Postal Department.

With regard to the fourth point, His Excellency the Governor-General in Council has already decided to permit the establishment and working of telephone exchanges by private enterprise; and it is hoped that a commencement will ere long be made.

7. With a view to the more rapid extension of the telegraph system, His Excellency the Governor-General in Council is further pleased to empower Local Governments and Administrations within the usual restrictions as to amount of budget allotments and power of sanction to authorise the Telegraph Department to erect any lines and open any offices that they may require on paying the first outlay and the annual charges for maintenance and working, retaining as a set-off the earnings of the lines as represented by the payments into the offices working them. Should a Local Government or Administration wish to abandon a line so made, it would be credited with the value of stores recovered after deducting the cost of dismantling and collecting.

8. The Government of India looks to the Director-General of Telegraphs to suggest any further measures which may tend towards the attainment of these objects.

DR. DE JONGH'S LIGHT-BROWN COD LIVER OIL.—In Throat Diseases its efficacy is unequalled. Sir G. Duncan Gibb, Bart., M.D., Physician to the Westminster Hospital, writes: "The value of Dr. de Jongh's Cod Liver Oil as a therapeutic agent in a number of diseases, chiefly of an exhaustive character, has been admitted by the world of medicine; but, in addition, I have found it a remedy of great power in the treatment of many Affections of the Throat and Larynx, especially in Consumption of the latter, where it will sustain life when everything else fails." Sold only in capsuled Imperial Half-pints, Pints, and Quarts, by all chemists, druggists, and store-keepers. Sole Consignees, Ansar, Harford and Co., 77, Strand, London.

PULMONARY consumption consecutive to an inflammation of the chest had reduced me to such a state that medicines were ordered to me by physicians rather to give me security than with the hope of a prolongation of life. Happily one of them advised me to use *Grimault's Syrup of Hypophosphite of Lime.* For two months past I have been taking that medicine, and my situation has been so remarkably improved that I may henceforth consider my recovery as certain. DR. BRIGHT'S PHOSPHODYNE.
THE SAFEST AND ONLY RELIABLE PREPARTION OF PHOSPHORUS.

Multitudes of people are hopelessly suffering from Debility, Nervous and Liver Complaints, Depression of Spirits, Timidity, Indigestion, Lassitude, Want of Power, &c., whose cases admit of a permanent cure by the new remedy, DR. BRIGHT'S PHOSPHODYNE (Ozonic Oxygen), which at once allays all irritation and excitement, imparts new energy and life to the enfeebled constitution, and rapidly cures every stage of these hitherto incurable and distressing maladies.

DR. BRIGHT'S PHOSPHODYNE is acknowledged by the first medical men in Europe as the most efficacious medicine hitherto discovered for Weak and Shattered Constitutions, Nervous Debility, Aversion or Incapacity for Study, Indigestion, Female Complaints, Flatulence, Liver Complaints, Shortness of Breath, Pains in the Head, Pimples, Impoverished Blood, and all diseases caused by a long residence in tropical climates, for which iron, mercury, iodide of potass, &c., are given in various forms, often to the destruction of the patient's health.

DR. BRIGHT'S PHOSPHODYNE.—Until the introduction of DR. BRIGHT'S PHOSPHODYNE, Phosphorus was but seldom prescribed as a medicine, owing to the difficulty in so preparing it that its action could be kept under perfect control. It had been used in Almond and Olive Oils in Sulphuric Ether, in Rectified Alcohol, in Chloroform, and in several advertised medicines; but, in all the hitherto known methods of its preparation, certain irregular results have been experienced. But in the form of DR. BRIGHT'S PHOSPHODYNE, its invaluable action on the human system is realized without any of those drawbacks which other modes of preparation invariably produce.

DR. BRIGHT'S PHOSPHODYNE, is prepared on a NEW PRINCIPLE, by which all possibly risk and disagreeable after effects are entirely prevented.

*Caution.*—Avoid Phosphorus in the form of Pills or Lozenges, as they frequently contain SOLID PARTICLES of Phosphorus, which accumulate in the system, causing serious evils.

DR. BRIGHT'S PHOSPHODYNE is agreeable to the Palate and innocent in its action, while retaining all its extraordinary properties, and as a specific surpasses all the known Therapeutic agents of the present day.

DR. BRIGHT'S PHOSPHODYNE—Its use enables all debilitated organs to perform their natural functions. Persons suffering from Nervous Debility, or any of the hundred symptoms which this distressing disease assumes, may rest assured of an effectual cure by the use of this most invaluable remedy.

DR. BRIGHT'S PHOSPHODYNE.—The ONLY medicine of that name granted certificates by Her Majesty's Registrar of Trade Marks. Beware of counterfeit Phosphodynes and worthless imitations bearing similar names; they are in no way recognized by the medical profession. Being prepared from OBSOLETE Formulas, they are absolutely unreliable, and in some cases positively dangerous.

DR. BRIGHT'S PHOSPHODYNE
Is Sold in Cases Only by all Chemists and Patent Medicine Vendors throughout the Globe.

Full Directions for use in the English, French, German, Italian, Dutch, Spanish, Portuguese, Russian, Danish, Turkish, Persian, Hindostani, Madrasse, Bengalle, Chinese, and Japanese Languages accompany each case, without which none can possibly be genuine Phosphodyne.
